Non-chronological Report

English through Theme

Instructions

Maths

As Mathematicians:
Children will be continuing their work on multiplication. They will then be moving onto work on different measures.

Maths through Theme

Weight and money problems.

Science

As Scientists:
Children will look at the body and the role that the skeleton, muscles and joints play. They will also look at nutrition and a healthy balanced plate. They will learn about nutrients and the different food groups.

Children will then look at plants. They will look at the structure of different plants and will also learn about what plants need to be able to grow. They will also begin to look at how a plant reproduces.

Geography

As Geographers:
Children will develop their mapping skills and will look more closely at North and South America. Children will look at the countries where cocoa and other ingredients in chocolate are grown and the journey they take before becoming a bar.

Year 3 Autumn:

Where does chocolate come from?

History

As Historians:
Children will learn about the Aztecs. They will learn about their everyday life and how the developments they made impact on our lives.

Art

As Artists:
Children will look at "Starry Night" by Vincent Van Gogh and will use this to influence their own artwork.

Design and technology

As Design Technologists:
Children will become Willy Wonka and design their own chocolate bar and packaging.

Computing

Children will continue their work on spreadsheets and will then move onto to developing their typing skills.

Music

As Musicians:
Children will develop their singing abilities and will look at how music can affect mood and feelings.

R.E

Children will look at different faith founders.

P.E

As Athletes:
Children will develop their netball and cricket skills.

Creativity Driver

Children will be engaged in their work through art and design.

Social and Emotional Well-being Driver

Children will continue with their Jigsaw work.

Enterprise Driver

Children will look at working towards a budget in their DT work.

Basic Skills Driver

Children will practice the basic skills of reading, writing and maths across the curriculum.
